

54th Kanto Regional Meeting, Society of Japan Science Teaching Back to the Praxis!

The Society of Japan Science Teaching (SJST), founded in 1951, has been reformed recently and restarted in 2015. One day meeting of the Kanto Branch (Tokyo area) is going to be held at the Ibaraki University, Mito, Japan on December 5th, 2015. The theme is simply raised as "Back to the Praxis!" since the divergence of theory and practice has been remained for long time. English session is first planned to be opened through the long history of the society. Welcome to Mito, Japan!

Hisashi Otsuji, Ibaraki University
